

## About Us

Zeuswares Technologies Corporation has decades of experience streamlining and automating business processes. We provide simple, affordable and comprehensive computer solutions designed to make your business more productive and efficient.

Our software products are so easy to use, virtually anyone can use them.

## Testimonials

"Our entire sales force uses the Zeus Newsletter system to promote and advertise our products through e-mail. It's an effective, easy to use product which requires very little training or expertise to use"

"We use the Zeus Document management system to distribute documents and large graphics files that are too big to e-mail. Our customers love it, so does our staff. The software is so simple to use, but rich with great features"

"The systems monitoring software keeps watch over the servers in our network around the clock. Our IT staff know instantly by e-mail, even after hours, so they can respond to network issues. It's unique externally hosted design even tells us when our Internet connection or E-Mail server has failed"

## Zeus Document

Our Zeus Document Management system is an ideal way of sharing documents in any file format with the world. Share with people both inside and outside your company with simple but effective security features. Setup and training takes just minutes. It's a great way to manage and centralize your files.

### Features

Share all your documents, spreadsheets, graphics files and more, all in one easy to use system. Can be used on Internet or Intranet sites

### Security

3 levels of security allows for great management flexibility.

## Zeus Postal Code

Our plug-in connects to your web site and allows your clients to find where they can purchase your products based on their postal code. It returns the name(s) of the store and a map.

## Zeus Newsletter

Our online Zeus Newsletter Management system is the perfect product for distribution of your newsletter, price lists, promotions and other ongoing marketing ideas.

### Email Addresses / Distribution List Management

- Manage E-mail addresses
- Manage E-mail distribution lists
- Company wide or personal lists
- Bulk Import of E-mail Addresses for quick setup

### Templates

- Create/Edit/Manage E-mail templates
- HTML coding for advanced users
- Multi-use templates or create new from existing templates.
- Easy to use template editor - If you know how to use Microsoft Word™, you can easily use our online editor.

### Security

- Admin and User level security permits you to control and manage user access
- Easy to use management interface

## Zeus HelpDesk

Our online help desk software issues trouble tickets when users report problems that need the attention of your IT department.

This flexible, scalable and customizable solution is an ideal way to document and manage computer related problems.

## Zeus Computer Monitoring

Increase productivity and uptime by allowing your IT department (or ours) to be alerted of computer problems before they happen. Receive e-mail or text message alerts in real-time even if your Internet connection has failed!

### Monitor:

- Computers and Server services
- IP connected devices on your network
- Monitors bandwidth speed
- Records and displays all monitoring data in easy to use Interface
